dezfouli2019

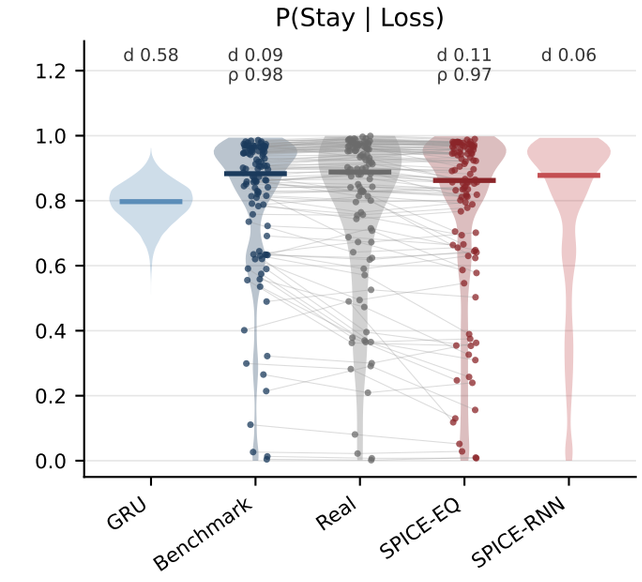

across metrics — GRU: d 0.59 Benchmark: d 0.36, ρ 0.69 SPICE-EQ: d 0.30, ρ 0.71 SPICE-RNN: d 0.28

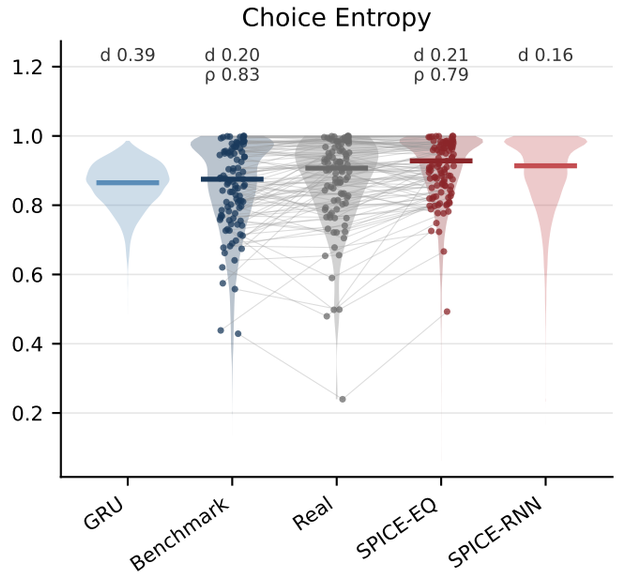

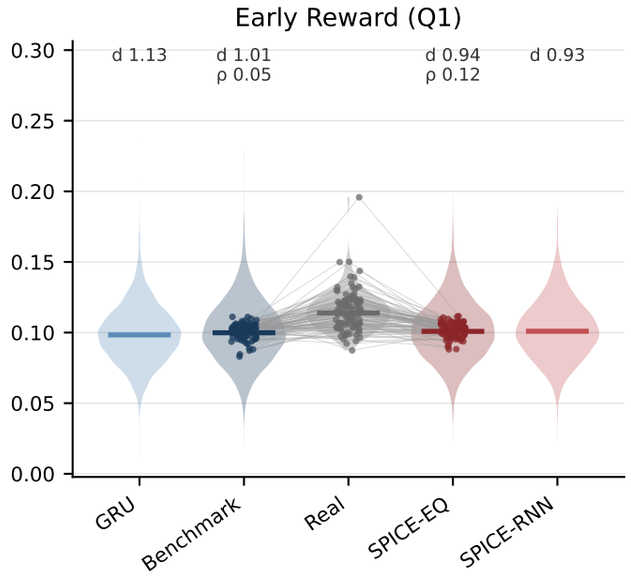

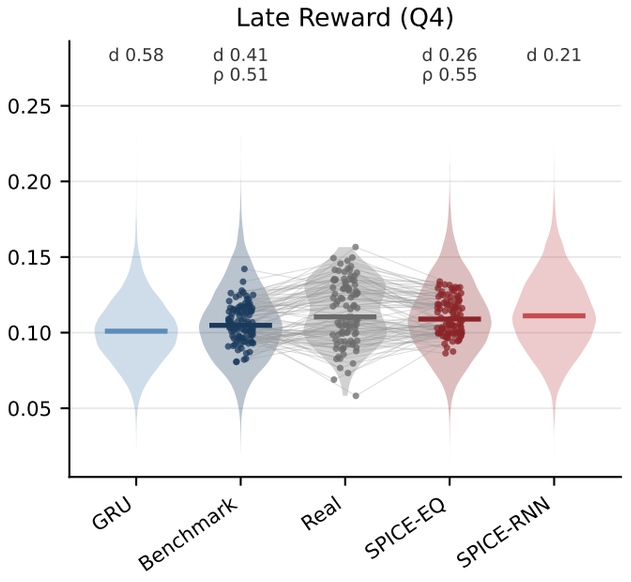

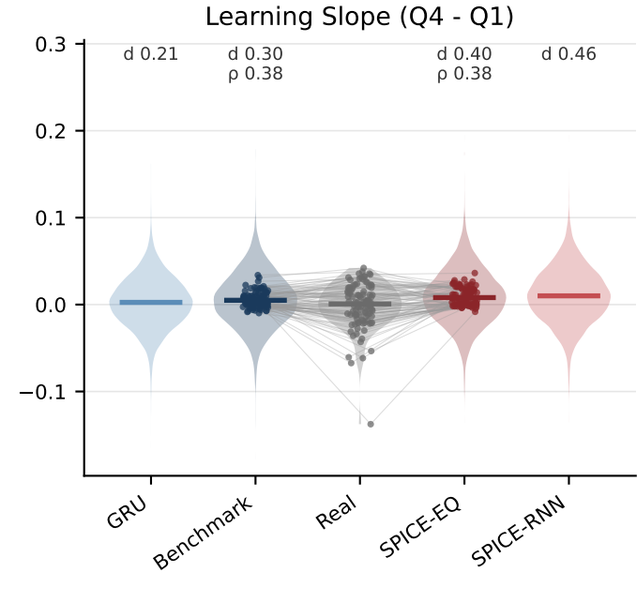

Violins: participants × models × runs. Dots: participants (models: mean over models and runs), lines join the same participant.
d: Wasserstein distance to Real / SD(Real), lower is better. ρ: Spearman correlation with Real across participants (individual differences). d and ρ: mean over models.
